

HF Sinclair STEM Scholarship & HF Sinclair CTE Scholarship

HF Sinclair's Puget Sound refinery is a proud member of the Skagit County community where generations of area residents have found jobs, built careers, supported families and helped strengthen their communities.

They are committed to education in Skagit County and are honored to offer an annual STEM and CTE scholarship to two Sedro-Woolley students or alums as they pursue higher education that could lead to a future career in the energy industry.

These scholarships were first established in the 2022-2023 school year.
